

“Support a Quran Memorizer from Gaza” Campaign

In cooperation with Let's Support Gaza's University Memorizers, the association that supports Palestinian students is launching a humanitarian campaign aimed at supporting Quran memorizers enrolled in undergraduate programs at Gaza universities. These students carry the honor of memorizing the Quran, yet their academic journey is hindered by severe financial hardship.

This campaign targets Quran institutions, charitable organizations, foundations, and individuals who have a passion for the Quran. It seeks to contribute to supporting young memorizers in Gaza, enabling them to continue their studies in vital fields such as:

Medicine – Engineering – Information Technology – Science – Management – and other disciplines.

Why do we support university-level Quran memorizers?

- Because they carry the Quran in full... and the Quran elevates its people.
- Because they exemplify ethics, commitment, and good conduct.
- Because they excel academically despite the difficult circumstances.
- Because supporting a memorizer is one of the most profound forms of charity and has a lasting impact.
- Because students in Gaza live under extremely harsh conditions, making their continuation at university a daily struggle.

“Supporting a Quran memorizer is not just helping one student; it is empowering a future leader to carry the Quran and bring its values to life.”

Forms of Support in the Campaign

Three simple and flexible options are offered to supporting institutions:

1. Monthly Scholarship Support: A contribution of USD 150–200 per month to help the student continue their education and cover essential living needs.
2. University Tuition Support: Covering one semester or one full academic year, according to the preference of the supporting institution.
3. Educational Device Support: Providing the student with a computer or tablet.

How Do We Present the Memorizer to the Supporting Organization?

Isnad Foundation prepares an approved profile file for each student, which includes:

- A certificate confirming the complete memorization of the Quran
- University information, major, and GPA
- The student's economic situation
- Their level of commitment and seriousness

The file is then sent to the supporting organization, which selects the student it wishes to sponsor.

Campaign Call

“This Quran memorizer is waiting for your support to continue on their educational and university journey. Support them... and share in the reward of their knowledge and their Quran.”
